## A Brief about the Studies Associated

### 1. Title of the Study

Health Service Development in the Indian Federal Financial Framework –

#### Sponsoring Agency

Ford Foundation – 1994

#### Brief About the Study

Federal financing was examined towards the development of health services in the states of Maharashtra, Karnataka, Rajasthan and Orissa. To what extent the Planning Commission and Finance Commission meet the needs of health sector and what happens below the state level was the major issue of inquiry. Effects of federal financing at the district level was also carried out as part of the project

### 2. Title of the Study

Estimation of Resource Cost of Morbidity and Under-Nutrition

#### Sponsoring Agency

IDRC, Canada – 1995-97

#### Brief About the Study

An attempt was made to estimate monetary value of ill health and under nutrition. Instead of DALYs and QALYs the study attempted to estimate the burden of diseases using the HH level information on morbidity and nutritional status

### 3. Title of the Study

Health Accounts at the District Level

#### Sponsoring Agency

Indian Institute of Management, Ahmedabad, 1999-2000

#### Brief About the Study

Application methodological issues of Health Accounts at the sub regional level of district in India

### 4. Title of the Study

Economic Reforms and Health Sector in India

#### Sponsoring Agency

UNDP, India -2000-04

#### Brief About the Study

In the background of the argument that there is a compression of resources to health in the wake of economic reforms the study examined the flow of finances to the states. The health

care financing in the states of Maharashtra, Karnataka and Orissa was examined. The growth of physical inputs was also examined and financing component included the analysis of budgetary expenditures on health. An attempt was also made to study the private expenditure on health using the NSSO data. The study revealed that financial expenditures need to be planned more systematically to take care of poor people and backward regions.

**5. Title of the Study**

Drought Impact Study in Karnataka

**Sponsoring Agency**

World Bank, 2004

**Brief About the Study**

The coping strategies were examined in the background of drought situation in Karnataka for three years and the issue of Government response and its effectiveness was also examined. The issue of farmers' suicides was taken up as part of the study.

**6. Title of the Study**

Subsidies to Tobacco Cultivation

**Sponsoring Agency**

WHO, 2005

**Brief About the Study**

Though the government tries to ban the tobacco it seems that the same government promotes tobacco crop by giving various direct and hidden subsidies. The study is the first attempt to quantify subsidies to tobacco in the Indian context

**7. Title of the Study**

An evaluation of Mahiti Sindhu Program (a program which provides Computer and Computer Aided Education to secondary schools of Karnataka)

**Sponsoring Agency**

DSERT, Government of Karnataka – 2006-07

**Brief About the Study**

Evaluation of the scheme was done in the background of the performance of various school and child related indicators. The results reveal that the drop outs have come down and attendance has improved in schools with computers

**8. Title of the Study**

Evaluation of Regional Development Boards in Karnataka

**Sponsoring Agency**

Department of Planning, Government of Karnataka -2008

### **Brief About the Study**

Financing of backward regions of the state through these boards was the major issue of the study

### **Other Studies**

**9. Title of the Study**

Status of Drinking Water Supply in Rural Habitations

**Sponsoring Agency**

Decentralized Planning of Health Services

**Brief About the Study**

Financial Management of Operation Blackboard

**10. Title of the Study**

Ministry of Rural Development, GOI -1994

**Sponsoring Agency**

Jointly with FRCH, Bangalore -1994-96

**Brief About the Study**

Ministry of Education, GOI, -2001-02

**11. Title of the Study**

Provision of Drinking water facility in rural areas was validated

**Sponsoring Agency**

An attempt was made to train the functionaries at the district level to plan for the health services

**Brief About the Study**

In seven major states the financial management of OBB was carried out. The multiple sources of public funding was examined on the provisions of various inputs to the primary schools

**Computer Knowledge**

: Working Knowledge of SPSS, MS-Office-2000 with exposure and good practice of Excel, M.S. Word, Power Point.
