# Acknowledgement

Centre for Multi-disciplinary Development Research (CMDR) Dharwad places on record its sincere thanks to Government of Karnataka, for establishing a Chair in the name of an eminent economist like Dr. D M Nanjundappa. The Chair has the mandate to carry forward views, ideas and philosophy of Dr. D M Nanjundappa as far as issues of regional development are concerned. The Chair has already come out with various studies in the past couple of years and it has also actively organized various outreach programmes to sensitize policy makers, administrators, media and public at large.

We sincerely pledge on this occasion to dedicate ourselves to examine and bring out research outputs, policy briefs and other academic material to strengthen the efforts of reducing regional imbalances in the state.

# About the Taluk Report Cards

The publication of the report of "High Power Committee for Redressal of Regional Imbalances" popularly known as Dr. D M Nanjundappa Committee Report has generated a good deal of debate on understanding regional imbalances as well as making efforts in correcting such imbalances in the state of Karnataka. The Committee in its voluminous report tried to figure out the development status of taluks in Karnataka state. Using an array of indicators the Committee developed a **Comprehensive Composite Development Index (CCDI)** and **Cumulative Deprivation Index (CDI)** for each taluk and compared the value of CCDI of each taluk against that of the state to arrive at the comparative position of different taluks for the year 2000. The CCDI of Dr. D M Nanjundappa Committee in the present day context can be used as a *bench mark* to examine what has happened among the taluks as far as similar index is concerned. In this background CMDR attempted construction of similar index using similar methodology and database for the period 2009-10.

After the report was submitted various governments in the state made efforts in correcting the regional imbalances as per the recommendations of Dr. D M Nanjundappa Committee. In the recent past, under the banner of Special Development Plan (SDP), the Government of Karnataka has been providing resources in tune with the recommendations of the Dr. D M Nanjundappa Committee across the state with an intention to reduce regional imbalances.

The present report cards as developed by CMDR make a modest attempt to present the comparative development scenario of taluks in each district. The comparison is made between *Dr. D M Nanjundappa Index* and the *Index as developed by CMDR*. The Report Cards contain at the outset the comparative positions of CCDI for two periods of time followed by the resource position.

The report cards basically address the policy makers and administrators for whom user friendly graphical presentations followed by cryptic notes are presented. Such report cards would come out for each district and presented as per the administrative divisions in the state.

We hope and trust that these report cards would be useful in taking further the issue of reducing regional imbalances in the state at large.

# About Indicators and Methodology

Using 35 indicators - covering sectors viz., Agricultural and allied (9); Industrial Trade and Finance (5); Economic Infrastructure (9); Social Infrastructure (7); and Population Characteristics (5); Sector wise index for each of the 175 taluks by using a methodology which assigns a precise weight to each of these indicators. These 5 sectoral indices are then aggregated into a CCDI by using the shares of these 5 sectors (suitably adjusted by giving a 10 percent additional weightage to social infrastructure) in the SDP of Karnataka.

Considering that an index of '1' indicates the state average, the Committee was able to identify 114 taluks whose CCDI values were less than '1' as "Backward Taluks". The Committee further sub- divided these into:

- (i) Relatively developed taluks  $CCDI > 1$ .
- (ii) Backward taluks:  $0.88 < CCDI < 1$ ;
- (iii) More backward taluks:  $0.79 < CCDI < 0.89$ ;
- (iv) Most backward taluks  $0.52 < CCDI < 0.80$ ;

**(HPCFRRI, 2002, pp 906)**

CMDR has followed the same methodology as stated above for arriving at CCDI values for the same set of indicators using the 2009-10 data.

<b>1. Agricultural and Allied</b>
A1: Percentage of total cropped area to net area sown,
A2: Percentage of area under food grains to total cropped area,
A3: Percentage of area under horticultural crops to total cropped area
A4: Percentage of area under commercial crops to total cropped area
A5: Percentage of net area irrigated to net area a sown
A6: Fertilizer (NPK) consumption in kilograms per hectare (total cropped area)
A7: Number of tractors per lakh rural population
A8: Livestock units per lakh rural population
A9: per capita bank credit (commercial and regional rural banks) to agriculture (in rupees)
<b>2. Industry, Trade and Finance</b>
I1: Number of industrial units per lakh population,
I2: Percentage of industrial workers to total workers,
I3: Per capita development credit by banks,
I4: Number of bank branches per lakh population,
I5: Number of enterprises engaged in trade, hotels and transport per lakh population
<b>3. Infrastructure (Economic)</b>
E1: Number of post offices per lakh population
E2: Number of telephones per lakh population
E3: Road length in kilometers per 100 square kilometres
E4: Proportion of villages having access to all weather roads(in percentage)
E5: Railway track in kilometers per 1000 square kilometres
E6: Number of motor vehicles per lakh population
E7: Number of co-operative credit societies (agri. & non-agriculture) per lakh population
E8: Proportion of electrified villages and hamlets to total villages and hamlets
E9: Number of regulated markets and sub-markets (equivalent regulated markets) per lakh population
<b>4. Infrastructure (Social)</b>
S1: Number of doctors (govt. & private) per 10,000 population
S2: Number of government hospital beds per 10,000 population
S3: Literacy rate (in percentage)
S4: Pupil-teacher ratio (1st to 10th standard)
S5: Percentage of children out of school in the age group 6 - 14 years
S6: Number of students enrolled in government and aided first grade degree colleges per lakh population
S7: Percentage of habitations having drinking water facility of 40 or more LPCD
<b>5. Population Characteristics</b>
P1: Sex ratio
P2: Percentage of urban population to total population
P3: Percentage of SC & and ST population to total population
P4: Percentage of non-agricultural workers to total workers
P5: Percentage of agricultural labourers to total workers

## OVERALL DISTRICT SCENARIO

Taluk	Comprehensive composite Development Index (CCDI)			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Channagiri	0.78	0.97	23.47	Most Backward (139)	Backward (88)
Honnali	0.86	0.89	3.54	More Backward (108)	Backward (112)
Harihara	1.17	1.19	1.28	Relatively Developed (34)	Relatively Developed (38)
Harappanahalli	0.72	0.72	-0.31	Most Backward (154)	Most Backward (162)
Jagalur	0.80	0.76	-5.01	More Backward (134)	Most Backward (151)
Davanagere	1.56	1.31	-16.34	Relatively Developed (7)	Relatively Developed (26)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

### Overall District Scenario:

- According to Dr. D M Nanjundappa Committee Report, Harihara and Davanagere were the two developed taluks.
- Again in 2009-10 Index, Harihara and Davanagere were the two developed taluks.
- Three taluks have registered negative growth. Davanagere taluk has registered maximum negative growth (-16.34 per cent), while Channagiri has registered highest growth (23.47 per cent) over a period of time.
- Channagiri and Honnali, which were most backward and more backward taluks in 1999-00, have move up to the backward category in 2009-10.

**CCDI-AGRICULTURE AND ALLIED**

Taluk	CCDI-AGRICULTURE AND ALLIED			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Channagiri	1.04	1.66	59.34	Relatively Developed (86)	Relatively Developed (10)
Honnali	1.09	1.46	33.52	Relatively Developed (66)	Relatively Developed (27)
Harihara	1.70	2.20	29.15	Relatively Developed (14)	Relatively Developed (2)
Jagalur	0.84	1.08	28.72	More Backward (125)	Relatively Developed (81)
Harappanahalli	0.81	0.96	17.96	More Backward (129)	Backward (109)
Davanagere	2.22	1.92	-13.46	Relatively Developed (1)	Relatively Developed (4)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

**Agriculture and Allied Sector**

- Dr. D M Nanjundappa Committee identified Channagiri, Honnali, Harihara and Davanagere as developed taluks.
- In 2009-10 Index, Channagiri, Honnali, Harihara, Jagalur and Davanagere were categorized as developed taluks.
- Except Davanagere taluk, all tother taluks have attained positive growth over a period of one decade.
- Jagalur has improved its position from more backward category to developed category, while Harappanahalli has move up from more backward to backward category. Other four taluks.

## CCDI-INDUSTRY, TRADE AND FINANCE

Taluk	CCDI-INDUSTRY, TRADE AND FINANCE			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Channagiri	0.49	0.45	-8.97	Most Backward (167)	Most Backward (166)
Honnali	0.70	0.51	-27.14	Most Backward (126)	Most Backward (153)
Harappanahalli	0.50	0.35	-29.93	Most Backward (165)	Most Backward (175)
Harihara	0.97	0.66	-32.54	Backward (50)	Most Backward (117)
Davanagere	1.35	0.85	-37.13	Relatively Developed (24)	More Backward (83)
Jagalur	0.80	0.45	-43.86	More Backward (83)	Most Backward (165)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

### Industry, Trade and Finance Sector

- As per Dr. D. M. Nanjundappa Committee Report, Davanagere was the only one developed taluk.
- In 2009-10 Index, none among six taluks were classified as developed taluk.
- All taluks of Davanagere district have experienced negative growth over a period of one decade.
- Harihara, Davanagere and Jagalur have slipped down in the development category during the period 1999-00 to 2009-10.

CCDI-INFRASTRUCTURE (ECONOMIC)					
Taluk	CCDI-INFRASTRUCTURE (ECONOMIC)			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Jagalur	0.62	0.75	21.29	Most Backward (169)	Most Backward (154)
Davanagere	1.30	1.28	-1.13	Relatively Developed (34)	Relatively Developed (38)
Honnali	0.93	0.88	-5.28	Backward (107)	More Backward (123)
Channagiri	0.83	0.77	-6.28	More Backward (135)	Most Backward (147)
Harihara	1.29	1.08	-16.80	Relatively Developed (35)	Relatively Developed (74)
Harappanahalli	0.75	0.60	-19.44	Most Backward (155)	Most Backward (173)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

### Economic Infrastructure Sector

- As per Dr. D. M. Nanjundappa Committee Report, Davanagere and Harihara were categorized as developed taluks.
- Even as per 2009-10 Index, Davanagere and Harihara were categorized as developed taluks.
- Except Jagalur, all other taluks have experienced negative growth during the period 1999-00 to 2009-10.
- Honnali has moved down from backward to more backward category, while Channagiri has moved from more backward to most backward category. Other four taluks Jagalur, Davanagere, Harihara and Harappanahalli fall in the same development category in 2009-10, as they were a decade earlier.

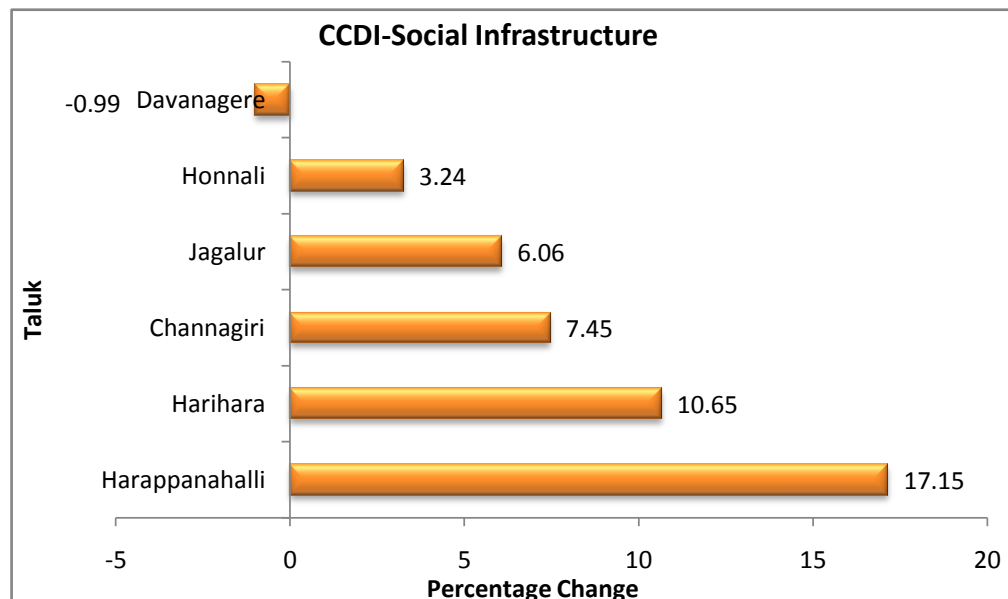

CCDI-INFRASTRUCTURE (SOCIAL)					
Taluk	CCDI-INFRASTRUCTURE (SOCIAL)			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Harappanahalli	0.88	1.03	17.15	More Backward (100)	Relatively Developed (74)
Harihara	0.86	0.96	10.65	More Backward (104)	Backward (96)
Channagiri	0.88	0.94	7.45	More Backward (99)	Backward (101)
Jagalur	0.81	0.86	6.06	More Backward (123)	More Backward (124)
Honnali	0.82	0.85	3.24	More Backward (117)	More Backward (131)
Davanagere	1.36	1.35	-0.99	Relatively Developed (12)	Relatively Developed (27)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

### Social Infrastructure Sector

- As per Dr. D. M. Nanjundappa Committee Report, Davanagere was the only developed taluk.
- In 2009-10 Index, Harapanahalli and Davanagere were the two developed taluks.
- Except Davanagere, other five taluks have registered positive growth in index values, over a period of one decade.
- Harapanahalli, Harihara and Channagiri have moved up in the development category.

## CCDI-POPULATION CHARACTERISTICS

Taluk	CCDI-POPULATION CHARACTERISTICS			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Harihara	1.05	1.00	-4.82	Relatively Developed (31)	Relatively Developed (64)
Honnali	0.88	0.83	-5.22	More Backward (116)	More Backward (148)
Davanagere	1.22	1.12	-7.70	Relatively Developed (5)	Relatively Developed (39)
Harappanahalli	1.00	0.83	-17.14	Relatively Developed (47)	More Backward (152)
Channagiri	0.95	0.78	-18.59	Backward (77)	Most Backward (172)
Jagalur	1.05	0.76	-27.41	Relatively Developed (28)	Most Backward (175)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

### Population Characteristics Index:

- As per Dr. D. M. Nanjundappa Committee Report, Harihara, Davanagere, Harapanahaalli and Jagalur were the developed taluks.
- Even as per 2009-10 Index, Harihara and Davanagere were developed taluks.
- All taluks of the district have shown negative growth in the value of index over a period of one decade.
- Harappanahalli, Channagiri and Jagalur have moved down in the development category. Honnali remain as more backward taluk while Harihara and Davanagere remain as developed taluks in both the study periods.

A1- Percentage of Total Cropped Area to Net area Sown					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Harihara	144.75	145.94	1.23	1.20	-2.82
Channagiri	121.03	116.91	1.03	0.96	-6.89
Honnali	126.75	119.97	1.08	0.99	-8.77
Jagalur	113.17	106.85	0.96	0.88	-8.99
Harappanahalli	117.65	109.01	1.00	0.90	-10.69
Davanagere	145.04	119.87	1.24	0.98	-20.34
District	126.33	117.49	1.08	0.96	-10.35

**A1: Percentage of total cropped area to net area sown**

- As per Dr. D. M. Nanjundappa Committee Report, five out of six taluks, except Jagalur, were developed taluks.
- In 2009-10 Index, only Harihara was categorized as developed taluk.
- No taluks of Davanagere district have shown positive growth in the index value over a period of time.
- Davanagere has reported maximum decline (-20.34 per cent) in the value of index, followed by Harappanahalli and Jagalur.
- *Percentage of total cropped area to net area sown* has shown a decline over a period of ten years in Davanagere district.

<b>A2 - Percentage Of Area Under Food Grains To Total Cropped Area</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Jagalur	46.18	58.98	0.77	0.99	28.72
Harappanahalli	64.66	76.44	1.08	1.28	18.94
Honnali	68.43	79.61	1.15	1.34	16.34
Harihara	83.81	89.56	1.41	1.51	6.75
Davanagere	78.62	82.92	35.89	1.39	5.57
Channagiri	70.78	69.74	1.19	1.17	-1.52
District	68.77	76.34	1.15	1.28	11.23

**A2: Percentage of Area under food grains to total cropped area**

- As per Dr. D. M. Nanjundappa Committee Report, five out of six taluks were developed taluks.
- Even in 2009-10 Index, five out of six taluks were developed taluks.
- Except Channagiri, all other taluks of Davanagere district have shown positive change in the value of index over a period of time.
- Jagalur has reported maximum increase (28.72 per cent) in the value of index, followed by Harappanahalli and Honnali.
- *Percentage of Area under food grains to total cropped area* in Davanagere district has shown an increase over a decade.

<b>A3- Percentage Of Area Under Horticultural Crops To Total Cropped Area</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Davanagere	1.00	11.90	0.30	0.82	174.35
Channagiri	2.79	28.33	0.83	1.95	133.95
Harihara	1.54	14.25	0.46	0.98	113.24
Honnali	2.41	13.75	0.72	0.95	31.42
Harappanahalli	3.55	7.30	1.06	0.50	-52.61
Jagalur	5.24	6.25	1.57	0.43	-72.52
District	2.74	13.73	0.82	0.94	15.32

**A3: Percentage of area under horticultural crops to total cropped area**

- As per Dr. D. M. Nanjundappa Committee Report, two out of six taluks were in developed category.
- In 2009-10 Index, only one taluk was categorized as developed taluk.
- Except Jagalur and Harappanahalli, all other taluks of Davanagere district have shown positive change in the value of index over a period of time.
- Davanagere has reported maximum increase (174.35 per cent) in the value of index, followed by Channagiri and Harihara.
- *Percentage of area under horticultural crops to total cropped area in Davanagere district has increased during the time period of 10 years.*

<b>A4 - Percentage Of Area Under Commercial Crops To Total Cropped Area</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Channagiri	26.38	26.59	0.72	0.82	13.13
Davanagere	20.20	15.16	0.55	0.47	-15.77
Jagalur	48.51	34.11	1.33	1.05	-21.10
Harappanahalli	31.72	20.41	0.87	0.63	-27.80
Harihara	14.50	8.76	0.40	0.27	-32.17
Honnali	29.01	17.11	0.80	0.53	-33.81
District	28.38	20.34	0.78	0.63	-19.59

**A4: Percentage of area under commercial crops to total cropped area**

- As per Dr. D. M. Nanjundappa Committee Report, only one taluk was classified as developed taluk.
- Even as per 2009-10 Index, only one taluk was identified as developed taluk.
- Except Channagiri, all other taluks of Davanagere district have shown negative change in the value of index over a period of time.
- Honnali has reported maximum decline (-33.81 per cent) in the value of index, followed by Harihara and Harappanahalli.
- *Percentage of area under commercial crops to total cropped area* in Davanagere district has declined over a period of one decade.

A5 - Percentage Of Net Area Irrigated To Net Area Sown					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Jagalur	12.65	17.09	0.53	0.54	0.84
Harappanahalli	16.81	22.56	0.71	0.71	0.18
Channagiri	35.88	44.16	1.51	1.39	-8.12
Davanagere	46.16	56.31	1.94	1.77	-8.93
Harihara	75.39	78.93	3.17	2.48	-21.84
Honnali	38.16	37.42	1.61	1.18	-26.80
District	33.82	40.06	1.42	1.26	-11.59

**A5: Percentage of net irrigated area to net area sown**

- As per Dr. D. M. Nanjundappa Committee Report, four out of six taluks were categorized as developed taluk.
- Even as per 2009-10 Index, four out of six taluks were categorized as developed taluks.
- Except Jagalur and Harappanahalli, all other taluks of Davanagere district have shown negative change in the value of index over a period of time.
- Honnali has reported maximum decline (-26.80 per cent) in the value of index, followed by Harihara and Davanagere.
- *Percentage of net irrigated area to net area sown* in Davanagere district has declined over a period of 10 years.

<b>A6 - Fertilizer (NPK) Consumption In Kilogram Per Hectare (Total Cropped Area)</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Jagalur	125.23	241.06	1.05	1.85	75.99
Harappanahalli	92.13	173.20	0.77	1.33	71.88
Channagiri	146.06	260.03	1.23	2.00	62.77
Honnali	163.09	285.04	1.37	2.19	59.80
Davanagere	199.41	297.88	1.68	2.29	36.58
Harihara	206.02	292.98	1.73	2.25	30.02
District	151.00	253.84	1.52	1.95	28.51

**A6: Fertilizer (NPK) consumption in kilograms per hectare (total cropped area)**

- As per Dr. D. M. Nanjundappa Committee Report, five out of six taluks were categorized as developed taluks.
- As per 2009-10 Index, all six taluks of the district were classified as developed taluks.
- All six taluks of Davanagere district have shown positive growth in the index value over a period of time.
- Jagalur has reported maximum increase (75.99 per cent) in the value of index, followed by Harappanahalli and Channagiri.
- Davanagere district has experienced a positive growth in *fertilizer (NPK) consumption* over a period of 10 years.

A7 - Number Of Tractors Per 1000 Hectares Area Sown					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Honnali	0.50	14.11	0.06	2.86	5055.89
Harappanahalli	0.22	5.42	0.02	1.10	4329.62
Jagalur	0.28	6.04	0.03	1.23	3902.57
Channagiri	2.66	18.89	0.30	3.83	1198.83
Harihara	34.02	37.40	3.78	7.59	100.90
Davanagere	79.26	26.00	8.80	5.28	-40.06
District	20.09	17.26	2.29	3.50	53.14

#### A7: Number of tractors per 1000 hectare area sown

- As per Dr. D. M. Nanjundappa Committee Report, two taluks were found in developed category.
- As per 2009-10 Index, all six taluks were identified as developed taluks.
- Except Davanagere taluk, all other taluks of Davanagere district have shown positive change in the value of index over a period of time.
- Honnali has reported enormous increase in the value of index, followed by Harappanahalli and Jagalur.
- The district has reported positive change in *number of tractors per 1000 hectare area sown* during the reference period.

<b>A8 - Livestock Units Per Lakh Rural Population</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Davanagere	52736.83	80159.24	1.09	1.85	69.53
Jagalur	44349.29	45534.52	0.92	1.05	14.51
Harihara	42383.36	43293.65	0.88	1.00	13.93
Channagiri	47829.98	46320.92	0.99	1.07	8.01

District	3032.03	5003.71	0.68	1.43	108.84

### **E2: Number of telephones per lakh population**

- As per Dr. D. M. Nanjundappa Committee Report, only one taluk was in developed category.
- Even as per 2009-10 Index, one taluk was in developed category.
- Except Davanagere and Harihara, all other taluks of Davanagere district have shown positive change in the value of index over a period of time.
- Harappanahalli has reported maximum increase (86.14 per cent) in the value of index, followed by Jagalur and Channagiri.
- *Number of telephones per lakh population* in Davanagere district has shown an increase during the period of one decade.

E3 - Road Length In Kilometers Per 100 Square Kilometres					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Davanagere	75.00	175.56	1.07	1.38	29.03
Jagalur	64.00	122.74	0.91	0.97	5.72
Honnali	85.00	125.05	1.21	0.99	-18.91
Harihara	134.00	170.02	1.92	1.34	-30.06
Harappanahalli	57.00	65.49	0.81	0.52	-36.67
Channagiri	85.00	89.99	1.21	0.71	-41.64
District	500.00	748.84	0.72	0.59	-17.47

### E3: Road length in kilometers per 100 square kilometers

- As per Dr. D. M. Nanjundappa Committee Report, four out of six taluks were in developed category.
- As per 2009-10 Index, two out of six taluks were in developed category.
- Except Davanagere and Jagalur, other four taluks of Davanagere district have shown negative change in the value of index over a period of time.
- Channagiri has reported maximum decline (-41.64 per cent) in the value of index, followed by Harappanahalli and Harihara.
- *Road length per 100 square kilometers* in Davanagere district has shown a decline during the reference period.

<b>E4 - Proportion Of Villages Having Access To All Weather Roads (In Percentage)</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Channagiri	58.29	95.34	0.97	1.51	56.09
Honnali	63.01	72.20	1.05	1.15	9.34
Harihara	90.91	96.00	1.51	1.52	0.78
Jagalur	64.18	64.63	1.07	1.03	-3.89
Davanagere	75.64	76.02	1.26	1.21	-4.08
Harappanahalli	93.24	47.37	1.55	0.75	-51.52
District	70.10	74.59	1.17	1.18	1.55

**E4: Proportion of villages having access to all weather roads(in percentage)**

- As per Dr. D. M. Nanjundappa Committee Report, five taluks were in developed category.
- As per 2009-10 Index, five out of six taluks were classified as developed taluks.
- Three taluks have experienced positive change and other three taluks have shown negative change in the value of index during the period 1999-00 to 2009-10.
- Channagiri taluk has experienced maximum increase (56.09 per cent) and Harappanahalli taluk has experienced maximum decline (-51.52 per cent).
- The district has seen an increase of *proportion of villages having access to all weather roads* during 10 year period.

<b>E5 - Railway Track In Kilometers Per 1000 Square Kilometres</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Harihara	14.68	14.04	0.84	0.94	12.45
Davanagere	42.74	40.24	2.45	2.71	10.68
Channagiri	0.00	0.00	0.00	0.00	0.00

Harihara	175.47	370.03	0.26	0.58	120.62
Harappanahalli	335.67	694.59	0.50	1.09	116.48
Channagiri	269.53	485.12	0.40	0.76	88.30
Jagalur	246.81	287.63	0.37	0.45	21.92
Davanagere	1004.55	952.00	1.50	1.49	-0.85
District	358.67	517.61	0.54	0.81	50.98

**S6: Number of students enrolled in government and aided first grade degree colleges per lakh population**

- As per Dr. D. M. Nanjundappa Committee Report, only one taluk was in developed category.
- As per 2009-10 Index, two taluks were in developed category.
- Except Davanagere taluk, other five taluks of Davanagere district have shown positive change in the value of index over a period of time.
- Honnali has reported maximum increase (175.72 per cent) in the value of index, followed by Harihara and Harappanahalli.
- An improvement in *number of students enrolled in government and aided first grade degree colleges per lakh population* is reported in Davanagere district.

<b>S7- Percentage Of Habitations Having Drinking Water Facility Of 40 Or More LPCD</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Jagalur	27.81	62.20	0.49	1.08	119.41
Harappanahalli	60.94	116.37	1.08	2.02	87.34
Harihara	55.79	84.00	0.99	1.46	47.72
Honnali	87.56	63.41	1.55	1.10	-28.95
Channagiri	74.60	52.54	1.32	0.91	-30.90
Davanagere	60.09	41.33	1.07	0.72	-32.52
District	61.13	66.76	1.09	1.16	6.38

**S7: Percentage of habitations having drinking water facility of 40 or more LPCD**

- As per Dr. D. M. Nanjundappa Committee Report, four taluks were in developed category.
- As per 2009-10 Index, four taluks were in developed category.
- Three taluks have experienced positive negative change in the value of index during the period 1999-00 to 2009-10.
- Jagalur taluk has experienced maximum increase (119.41 per cent) and Davanagere taluk has experienced maximum decline (-32.52 per cent).
- The district has reported an increase in *percentage of habitations having drinking water facility of 40 or more LPCD*.

P1- Sex Ratio					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Davanagere	945.79	972.55	0.98	1.00	2.33
Channagiri	951.16	969.27	0.99	1.00	1.41
Harihara	946.67	961.01	0.98	0.99	1.02
Jagalur	963.15	975.38	1.00	1.01	0.77
Honnali	960.26	968.92	1.00	1.00	0.41
Harappanahalli	951.73	953.42	0.99	0.98	-0.31
District	951.00	951.56	0.99	0.99	-0.07

### P1: Sex ratio

- As per Dr. D. M. Nanjundappa Committee Report, two taluks were in developed category.
- As per 2009-10 Index, four taluks were categorized as developed taluks.
- Except Harappanahalli, all other taluks of Davanagere district have shown positive change in the value of index over a period of time.
- Davanagere has reported maximum increase (2.33 per cent) in the value of index, followed by Channagiri and Harihara.
- *Sex ratio* in Davanagere district has declined slightly over a period of 10 years.

P2 - Percentage Of Urban Population To Total Population					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Channagiri	6.33	7.02	0.19	0.18	-2.32
Honnali	7.00	7.69	0.21	0.20	-3.18
Jagalur	9.28	10.04	0.27	0.26	-4.65
Davanagere	60.46	63.65	1.78	1.65	-7.25
Harappanahalli	15.59	15.58	0.46	0.40	-11.96
Harihara	35.72	35.62	1.05	0.92	-12.16
District	30.30	30.32	0.89	0.89	0.06

### P2: Percentage of urban population to total population

- As per Dr. D. M. Nanjundappa Committee Report, two taluks were found to be in developed category.
- As per 2009-10 Index, only one taluk was identified as developed taluk.
- No taluks of Davanagere district have shown positive growth in the index value over a period of time.
- Harihara has reported maximum decline (-12.16 per cent) in the value of index, followed by Harappanahalli and Davanagere.
- The district has reported a marginal increase in *percentage of urban population to total population*.

P3 - Percentage Of SC & ST Population To Total Population					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Davanagere	25.87	24.98	0.80	0.86	8.12
Harihara	21.53	21.21	0.96	1.02	5.98
Channagiri	36.43	36.01	0.57	0.60	5.64
Jagalur	46.07	47.41	0.45	0.45	1.46
Honnali	24.39	26.63	0.85	0.81	-4.37
Harappanahalli	31.07	37.36	0.66	0.58	-13.19
District	29.37	30.32	0.70	0.71	1.13

**P3: Percentage of SC & and ST population to total population**

- As per Dr. D. M. Nanjundappa Committee Report, none among the six taluks of the district was in developed category.
- Even as per 2009-10 Index, only one taluk was in developed category.
- Except Honnali and Harappanahalli, all other taluks of Davanagere district have shown positive change in the value of index over a period of one decade.
- Davanagere has reported maximum increase (8.12 per cent) in the value of index, followed by Harihara and Channagiri.
- *Percentage of SC & and ST population to total population* has shown a rise over a period of ten years in Davanagere district.

<b>P4 - Percentage Of Non-Agricultural Workers To Total Workers</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Channagiri	20.68	37.89	0.49	1.32	168.95
Harappanahalli	24.66	44.98	0.58	1.56	167.72
Honnali	24.55	42.02	0.58	1.46	151.24
Jagalur	28.16	36.98	0.67	1.29	92.76
Harihara	37.61	32.10	0.89	1.12	25.29
Davanagere	52.28	23.61	1.24	0.82	-33.71
District	34.24	34.54	0.82	1.20	46.15

**P4: Percentage of non-agricultural workers to total workers**

- As per Dr. D. M. Nanjundappa Committee Report, only one taluk was found to be in developed category.
- As per 2009-10 Index, five taluks were identified as developed taluks.
- Other than Davanagere taluk, five taluks have shown positive change in the value of index over a period of time.
- Channagiri has reported maximum increase (168.95 per cent) in the value of index, followed by Harappanahalli and Honnali.
- *Percentage of non-agricultural workers to total workers* has shown an increase over a period of ten years in Davanagere district.

P5 -Percentage Of Agricultural Labourers To Total Main Workers					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Harihara	39.62	36.98	0.73	0.96	31.24
Davanagere	27.44	26.95	1.05	1.31	24.72
Channagiri	41.10	50.34	0.70	0.70	0.00
Honnali	42.31	52.31	0.68	0.68	-0.94
Harappanahalli	45.72	61.03	0.63	0.58	-8.23
Jagalur	34.22	50.24	0.84	0.70	-16.56
District	23.49	42.85	1.23	0.83	-32.88

**P5: Percentage of agricultural labourers to total workers**

- As per Dr. D. M. Nanjundappa Committee Report, only one taluk was classified as developed taluk.
- Even as per 2009-10 Index, only one taluk was identified as developed taluk.
- Two taluks have experienced positive change and three taluks have shown negative change in the value of index during the period 1999-00 to 2009-10. Channagiri taluk has shown no change in the value of index.
- Harihara taluk has experienced maximum increase (31.24 per cent) and Jagalur taluk has experienced maximum decline (-16.56 per cent).
- The district has reported a decline in *percentage of agricultural labourers to total workers*.

## About CMDR

The Centre for Multi-disciplinary Development Research (CMDR) is an autonomous non-profit research organisation located at Dharwad. It was registered in 1980 under the Society's Registration Act. The Indian Council of Social Science Research (ICSSR), New Delhi, an all India apex body of Central Government to promote social science research in the country, recognized CMDR in 1990 as a national level research institute for social science research with regular funding. The Government of Karnataka has also been providing regular maintenance grant to CMDR.

The main objective of the Centre is to undertake research with multi-disciplinary perspective on a variety of socio-economic problems of Karnataka in particular and Indian economy in general and facilitate policy decisions and capacity enhancement on the basis of research studies for the benefit of the society, region and economy through investigation, dissemination, intervention and application. CMDR has also been organising capacity building programmes, research methodology workshops and, Ph.D. programmes in Social Sciences.

After over 30 years of continual action research, CMDR has now emerged as a major think tank in north Karnataka. Two important Research Chairs have been created at CMDR by the Karnataka Government, one in memory of Dr. D. M. Nanjudappa and the other in the name of Shri. Abdul Nazir Sab.
