# Acknowledgement

Centre for Multi-disciplinary Development Research (CMDR) Dharwad places on record its sincere thanks to Government of Karnataka, for establishing a Chair in the name of an eminent economist like Dr. D M Nanjundappa. The Chair has the mandate to carry forward views, ideas and philosophy of Dr. D M Nanjundappa as far as issues of regional development are concerned. The Chair has already come out with various studies in the past couple of years and it has also actively organized various outreach programmes to sensitize policy makers, administrators, media and public at large.

We sincerely pledge on this occasion to dedicate ourselves to examine and bring out research outputs, policy briefs and other academic material to strengthen the efforts of reducing regional imbalances in the state.

# About the Taluk Report Cards

The publication of the report of "High Power Committee for Redressal of Regional Imbalances" popularly known as Dr. D M Nanjundappa Committee Report has generated a good deal of debate on understanding regional imbalances as well as making efforts in correcting such imbalances in the state of Karnataka. The Committee in its voluminous report tried to figure out the development status of taluks in Karnataka state. Using an array of indicators the Committee developed a **Comprehensive Composite Development Index (CCDI)** and **Cumulative Deprivation Index (CDI)** for each taluk and compared the value of CCDI of each taluk against that of the state to arrive at the comparative position of different taluks for the year 2000. The CCDI of Dr. D M Nanjundappa Committee in the present day context can be used as a *bench mark* to examine what has happened among the taluks as far as similar index is concerned. In this background CMDR attempted construction of similar index using similar methodology and database for the period 2009-10.

After the report was submitted various governments in the state made efforts in correcting the regional imbalances as per the recommendations of Dr. D M Nanjundappa Committee. In the recent past, under the banner of Special Development Plan (SDP), the Government of Karnataka has been providing resources in tune with the recommendations of the Dr. D M Nanjundappa Committee across the state with an intention to reduce regional imbalances.

The present report cards as developed by CMDR make a modest attempt to present the comparative development scenario of taluks in each district. The comparison is made between *Dr. D M Nanjundappa Index* and the *Index as developed by CMDR*. The Report Cards contain at the outset the comparative positions of CCDI for two periods of time followed by the resource position.

The report cards basically address the policy makers and administrators for whom user friendly graphical presentations followed by cryptic notes are presented. Such report cards would come out for each district and presented as per the administrative divisions in the state.

We hope and trust that these report cards would be useful in taking further the issue of reducing regional imbalances in the state at large.

# About Indicators and Methodology

Using 35 indicators - covering sectors viz., Agricultural and allied (9); Industrial Trade and Finance (5); Economic Infrastructure (9); Social Infrastructure (7); and Population Characteristics (5); Sector wise index for each of the 175 taluks by using a methodology which assigns a precise weight to each of these indicators. These 5 sectoral indices are then aggregated into a CCDI by using the shares of these 5 sectors (suitably adjusted by giving a 10 percent additional weightage to social infrastructure) in the SDP of Karnataka.

Considering that an index of '1' indicates the state average, the Committee was able to identify 114 taluks whose CCDI values were less than '1' as "Backward Taluks". The Committee further sub- divided these into:

- (i) Relatively developed taluks  $CCDI > 1$ .
- (ii) Backward taluks:  $0.88 < CCDI < 1$ ;
- (iii) More backward taluks:  $0.79 < CCDI < 0.89$ ;
- (iv) Most backward taluks  $0.52 < CCDI < 0.80$ ;

**(HPCFRRI, 2002, pp 906)**

CMDR has followed the same methodology as stated above for arriving at CCDI values for the same set of indicators using the 2009-10 data.

<b>1. Agricultural and Allied</b>
A1: Percentage of total cropped area to net area sown,
A2: Percentage of area under food grains to total cropped area,
A3: Percentage of area under horticultural crops to total cropped area
A4: Percentage of area under commercial crops to total cropped area
A5: Percentage of net area irrigated to net area a sown
A6: Fertilizer (NPK) consumption in kilograms per hectare (total cropped area)
A7: Number of tractors per lakh rural population
A8: Livestock units per lakh rural population
A9: per capita bank credit (commercial and regional rural banks) to agriculture (in rupees)
<b>2. Industry, Trade and Finance</b>
I1: Number of industrial units per lakh population,
I2: Percentage of industrial workers to total workers,
I3: Per capita development credit by banks,
I4: Number of bank branches per lakh population,
I5: Number of enterprises engaged in trade, hotels and transport per lakh population
<b>3. Infrastructure (Economic)</b>
E1: Number of post offices per lakh population
E2: Number of telephones per lakh population
E3: Road length in kilometers per 100 square kilometres
E4: Proportion of villages having access to all weather roads(in percentage)
E5: Railway track in kilometers per 1000 square kilometres
E6: Number of motor vehicles per lakh population
E7: Number of co-operative credit societies (agri. & non-agriculture) per lakh population
E8: Proportion of electrified villages and hamlets to total villages and hamlets
E9: Number of regulated markets and sub-markets (equivalent regulated markets) per lakh population
<b>4. Infrastructure (Social)</b>
S1: Number of doctors (govt. & private) per 10,000 population
S2: Number of government hospital beds per 10,000 population
S3: Literacy rate (in percentage)
S4: Pupil-teacher ratio (1st to 10th standard)
S5: Percentage of children out of school in the age group 6 - 14 years
S6: Number of students enrolled in government and aided first grade degree colleges per lakh population
S7: Percentage of habitations having drinking water facility of 40 or more LPCD
<b>5. Population Characteristics</b>
P1: Sex ratio
P2: Percentage of urban population to total population
P3: Percentage of SC & and ST population to total population
P4: Percentage of non-agricultural workers to total workers
P5: Percentage of agricultural labourers to total workers

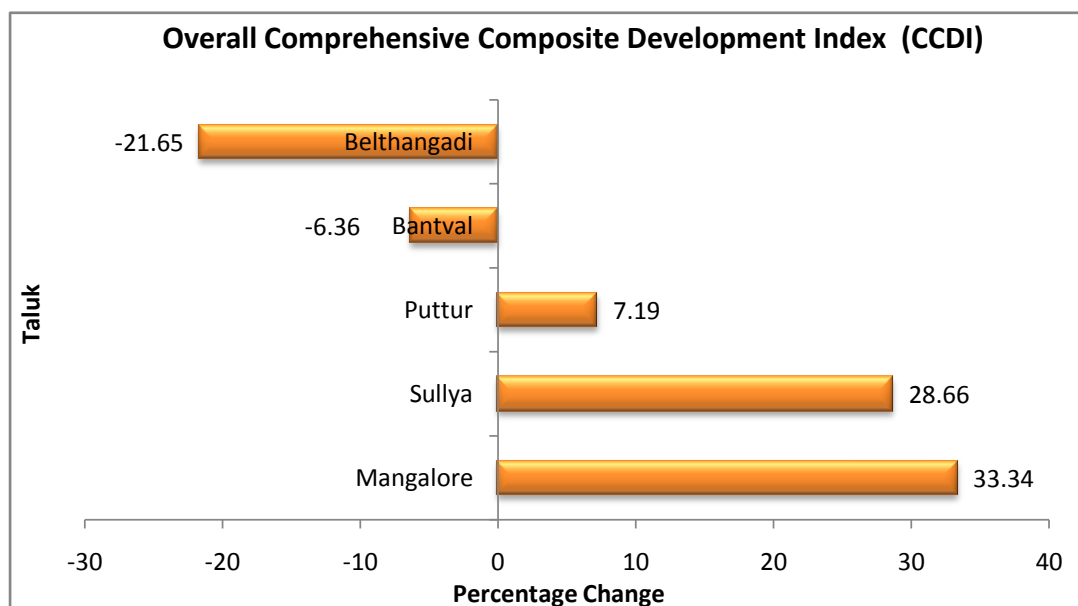

## OVERALL DISTRICT SCENARIO

Taluk	Comprehensive composite Development Index (CCDI)			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Mangalore	1.75	2.34	33.34	Relatively Developed (4)	Relatively Developed (1)
Sullya	1.30	1.68	28.66	Relatively Developed (24)	Relatively Developed (6)
Puttur	1.46	1.56	7.19	Relatively Developed (15)	Relatively Developed (12)
Bantval	1.19	1.11	-6.36	Relatively Developed (31)	Relatively Developed (49)
Belthangadi	1.32	1.04	-21.65	Relatively Developed (21)	Relatively Developed (66)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

### Overall District Scenario:

- All five taluks of Dakshina Kannada district were in developed category, as per Dr. D M Nanjundappa Committee Report.
- Even in 2009-10 Index, all five taluks were in developed category.
- Three taluks have shown positive change, while two taluks have shown negative change in the value of CCDI during the gap of ten years.
- All taluks continue to be in developed status over a period of one decade.

## CCDI-AGRICULTURE AND ALLIED

Taluk	CCDI-AGRICULTURE AND ALLIED			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Mangalore	1.07	1.70	58.04	Relatively Developed (75)	Relatively Developed (7)
Sullya	1.37	1.60	16.45	Relatively Developed (34)	Relatively Developed (16)
Puttur	1.60	1.56	-2.43	Relatively Developed (19)	Relatively Developed (18)
Belthangadi	1.43	1.25	-12.33	Relatively Developed (28)	Relatively Developed (48)
Bantval	1.36	1.11	-18.19	Relatively Developed (35)	Relatively Developed (72)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

### Agriculture and Allied Sector

- Dr. D M Nanjundappa Committee identified all taluks of the district in developed category.
- Even in 2009-10 Index, all taluks were in developed category.
- Two taluks, namely – Mangalore and Sullya registered positive growth, while other three taluks experienced negative growth in the index value of Agriculture and Allied sector over a period of time.
- However all taluks continue to be in developed category over a period of one decade.

## CCDI-INDUSTRY, TRADE AND FINANCE

Taluk	CCDI-INDUSTRY, TRADE AND FINANCE			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Sullya	1.29	1.56	21.51	Relatively Developed (26)	Relatively Developed (20)
Mangalore	2.62	3.11	18.49	Relatively Developed (1)	Relatively Developed (1)
Puttur	1.56	1.57	0.60	Relatively Developed (12)	Relatively Developed (19)
Bantval	1.42	1.11	-21.67	Relatively Developed (18)	Relatively Developed (50)
Belthangadi	1.68	1.03	-38.76	Relatively Developed (9)	Relatively Developed (58)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

### Industry, Trade and Finance Sector

- All five taluks of the district were in developed category in both the indices.
- Except Bantwal and Belthangady, other three taluks attain positive change in index value of Industry, Trade and Finance sector, during the period 1999-00 to 2009-10.
- All taluks remain in developed category with no change in categorization of any taluk in the district.

## CCDI-INFRASTRUCTURE (ECONOMIC)

Taluk	CCDI-INFRASTRUCTURE (ECONOMIC)			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Puttur	0.95	1.53	61.45	Backward (102)	Relatively Developed (14)
Mangalore	1.29	1.90	47.80	Relatively Developed (36)	Relatively Developed (2)
Belthangadi	0.82	0.92	11.93	More Backward (136)	Backward (109)
Bantval	0.80	0.89	11.86	More Backward (142)	Backward (122)
Sullya	1.26	1.18	-6.51	Relatively Developed (39)	Relatively Developed (56)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

### Economic Infrastructure Sector

- As per Dr. D. M. Nanjundappa Committee Report, Mangalore and Sullya were in developed category.
- In 2009-10 Index, Puttur, Mangalore and Sullya were in developed category.
- Except Sullya, other four taluks show positive change in the value of index. Puttur exhibits maximum change of 61.45 per cent, followed by Mangalore and Belthangady.
- Puttur moved up from backward to developed category, while Belthangady and Bantval improved its position from more backward to backward category. Mangalore and Sullya continue to remain in developed category.

## CCDI-INFRASTRUCTURE (SOCIAL)

Taluk	CCDI-INFRASTRUCTURE (SOCIAL)			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Mangalore	1.55	2.07	33.66	Relatively Developed (7)	Relatively Developed (3)
Bantval	0.91	1.10	21.05	Backward (84)	Relatively Developed (56)
Sullya	1.32	1.21	-8.01	Relatively Developed (16)	Relatively Developed (38)
Puttur	1.47	1.25	-15.00	Relatively Developed (9)	Relatively Developed (34)
Belthangadi	1.02	0.85	-16.92	Relatively Developed (57)	More Backward (130)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

### Social Infrastructure Sector

- As per Dr. D. M. Nanjundappa Committee Report, except Bantval, all other taluks were in developed category.
- In 2009-10 Index, except Belthangady, other four taluks were in developed category.
- Except Mangalore and Bantval taluks, other three taluks experienced negative change in the value of index over a period of time. Mangalore reports maximum increase of 33.66 per cent, whereas Belthangady registers maximum negative growth(-16.92 per cent).
- Bantval moved up from backward to developed category while, Belthangady slipped down from developed to more backward category.

## CCDI-POPULATION CHARACTERISTICS

Taluk	CCDI-POPULATION CHARACTERISTICS			Status of Taluks as per Dr. D M Nanjundappa Committee Report (1999-00)	Status of Taluks as per 2009-10 Index
	1999-00	2009-10	% Change		
Sullya	0.98	7.63	682.48	Backward (55)	Relatively Developed (1)
Puttur	0.95	3.56	274.68	Backward (79)	Relatively Developed (2)
Mangalore	1.15	2.65	130.55	Relatively Developed (11)	Relatively Developed (3)
Bantval	0.88	1.78	103.31	More Backward (117)	Relatively Developed (10)
Belthangadi	0.81	1.19	46.29	More Backward (142)	Relatively Developed (29)

Note: Figures in brackets indicate ranking of taluks in comparison to the state CCDI

### Population Characteristics Index:

- As per Dr. D. M. Nanjundappa Committee Report, Mangalore was the only developed taluk in the district.
- In 2009-10 Index, all five taluks were classified as developed taluks.
- All taluks of the district report positive change in the value of Population Characteristics index. Maximum increase in index value over a period of time is reported from Sullya, followed by Puttur and Mangalore taluks.
- Sullya and Puttur moved from backward to developed category, whereas Bantval and Belthangady improved their position from more backward to developed category. Mangalore remains in developed category over a period of one decade.

<b>A1- Percentage of Total Cropped Area to Net area Sown</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Mangalore	138.80	140.02	1.18	1.15	-2.76
Sullya	102.09	101.95	0.87	0.84	-3.74
Puttur	116.73	113.18	0.99	0.93	-6.54
Bantval	130.57	125.49	1.11	1.03	-7.36
Belthangadi	126.30	120.38	1.08	0.99	-8.13
District	124.50	120.48	1.06	0.99	-6.72

**A1: Percentage of total cropped area to net area sown**

- As per Dr. D. M. Nanjundappa Committee Report, three taluks were in developed category.
- In 2009-10 Index, two taluks were identified as developed taluks.
- No taluks have shown positive growth in the index value over a period of time.
- Belthangadi has reported maximum decline (-8.13 per cent) in the value of index, followed by Bantval and Puttur.
- *Percentage of total cropped area to net area sown* has shown a decline over a period of ten years in Dakshina Kannada district.

<b>A2 - Percentage Of Area Under Food Grains To Total Cropped Area</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Mangalore	70.81	66.84	1.19	1.12	-5.42
Bantval	51.74	47.01	0.87	0.79	-8.96
Belthangadi	41.78	34.27	0.70	0.58	-17.81
Sullya	5.86	4.25	0.10	0.07	-27.36
Puttur	33.20	21.66	0.56	0.36	-34.64
District	45.09	37.21	0.76	0.63	-17.31

**A2: Percentage of Area under food grains to total cropped area**

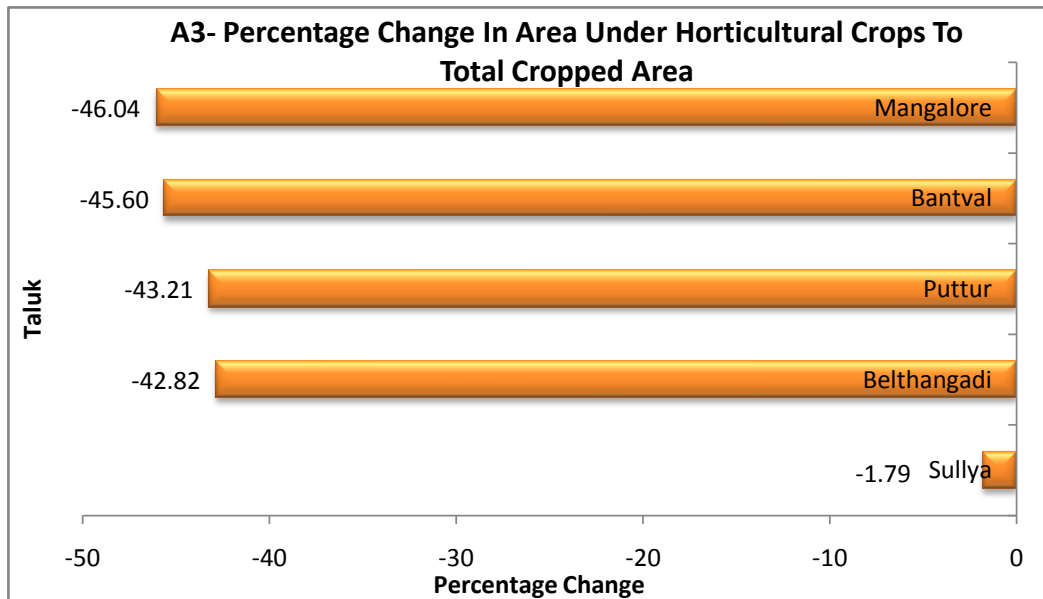

- Mangalore was identified as developed taluk as per both the indices.
- No taluks have shown positive growth in the index value over a period of time.
- Puttur has reported maximum decline (-34.64 per cent) in the value of index, followed by Sullya and Belthangadi.
- *Percentage of Area under food grains to total cropped area* in Dakshina Kannada district has shown a decline over a decade.

<b>A3- Percentage Of Area Under Horticultural Crops To Total Cropped Area</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Sullya	22.59	96.21	6.74	6.62	-1.79
Belthangadi	26.55	65.84	7.93	4.53	-42.82
Puttur	31.20	76.85	9.31	5.29	-43.21
Bantval	22.52	53.12	6.72	3.66	-45.60
Mangalore	14.08	32.95	4.20	2.27	-46.04
District	22.80	62.64	6.81	4.31	-36.66

**A3: Percentage of area under horticultural crops to total cropped area**

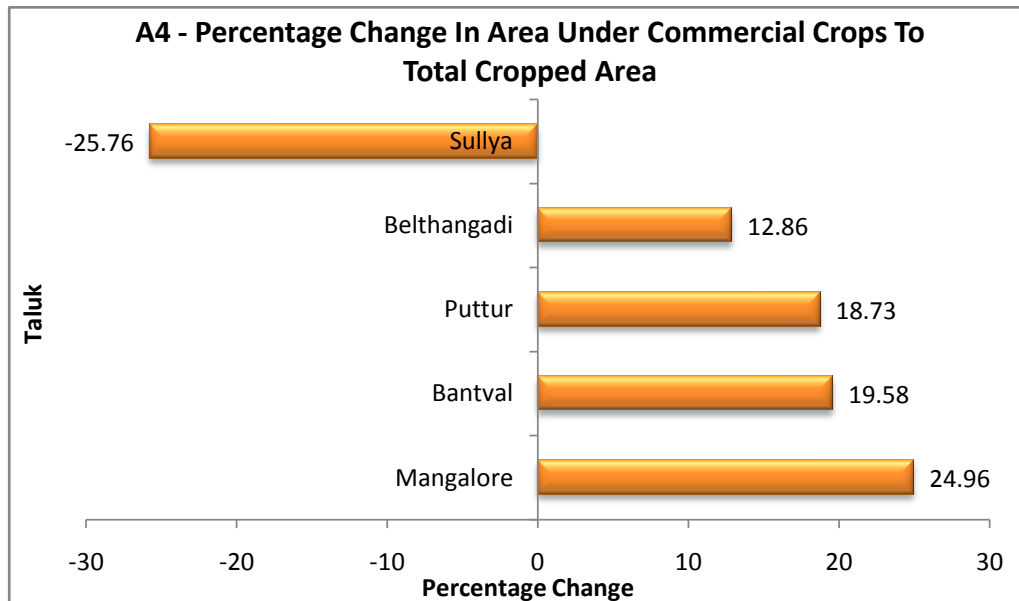

- All five taluks of the district were categorized as developed taluks in both the indices.
- No taluks have shown positive growth in the index value over a period of time.
- Mangalore has reported maximum decline (-46.04 per cent) in the value of index, followed by Bantval and Puttur.
- *Percentage of area under horticultural crops to total cropped area in Dakshina Kannada district has declined during the time period of 10 years.*

<b>A4 - Percentage Of Area Under Commercial Crops To Total Cropped Area</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Mangalore	14.97	16.67	0.41	0.51	24.96
Bantval	25.04	26.68	0.69	0.82	19.58
Puttur	32.95	34.86	0.90	1.07	18.73
Belthangadi	31.67	31.85	0.87	0.98	12.86
Sullya	71.55	47.34	1.96	1.46	-25.76
District	31.50	30.42	0.86	0.94	8.35

**A4: Percentage of area under commercial crops to total cropped area**

- As per Dr. D. M. Nanjundappa Committee Report, only Sullya was recognized as developed taluk.
- As per 2009-10 Index, Puttur and Sullya were classified as developed taluks.
- Except Sullya, other four taluks have shown positive change in the value of index over a period of time.
- Mangalore has reported maximum increase (24.96 per cent) in the value of index, followed by Bantval and Puttur.
- *Percentage of area under commercial crops to total cropped area* in Dakshina Kannada district has declined over a period of one decade.

A5 - Percentage Of Net Area Irrigated To Net Area Sown					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Belthangadi	46.25	53.74	1.95	1.69	-13.27
Sullya	48.04	51.60	2.02	1.62	-19.81
Puttur	51.23	53.85	2.16	1.69	-21.52
Bantval	57.11	56.88	2.40	1.79	-25.64
Mangalore	53.98	51.44	2.27	1.62	-28.86
District	51.30	53.68	2.16	1.69	-21.88

#### A5: Percentage of net irrigated area to net area sown

- All five taluks of the district were in developed category in both the indices.
- No taluks have shown positive growth in the index value over a period of time.
- Mangalore has reported maximum decline (-28.86 per cent) in the value of index, followed by Bantval and Puttur.
- *Percentage of net irrigated area to net area sown* in Dakshina Kannada district has declined over a period of 10 years.

<b>A6 - Fertilizer (NPK) Consumption In Kilogram Per Hectare (Total Cropped Area)</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Mangalore	92.29	190.55	0.78	1.46	88.76
Puttur	106.59	166.29	0.90	1.28	42.64
Bantval	104.98	96.19	0.88	0.74	-16.22
Sullya	103.70	66.02	0.87	0.51	-41.79
Belthangadi	87.27	42.88	0.73	0.33	-55.08
District	97.47	105.66	0.98	0.81	-17.13

**A6: Fertilizer (NPK) consumption in kilograms per hectare (total cropped area)**

- As per Dr. D. M. Nanjundappa Committee Report, no taluks were in developed category.
- As per 2009-10 Index, two taluks were identified as developed taluks.
- Two taluks have experienced positive change and three taluks have shown negative change in the value of index during the period 1999-00 to 2009-10.
- Mangalore taluk has experienced maximum increase (88.76 per cent) and Belthangadi taluk has experienced maximum decline (-55.08 per cent).
- Dakshina Kannada district has experienced a negative growth in *fertilizer (NPK) consumption* over a period of 10 years.

<b>A7 - Number Of Tractors Per 1000 Hectares Area Sown</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Belthangadi	0.37	0.77	0.04	0.16	274.40
Sullya	0.67	1.08	0.07	0.22	193.53
Mangalore	1.73	2.38	0.19	0.48	151.61
Bantval	1.35	0.63	0.15	0.13	-14.40
Puttur	0.99	0.33	0.11	0.07	-39.76
District	1.05	1.03	0.12	0.21	73.30

**A7: Number of tractors per 1000 hectare area sown**

- No taluks of the district were in developed category in both the indices.
- Three taluks have experienced positive change and two taluks have shown negative change in the value of index during the period 1999-00 to 2009-10.
- Belthangadi taluk has experienced maximum increase (274.40 per cent) and Puttur taluk has experienced maximum decline (-39.76 per cent).
- The district has reported positive change in *number of tractors per 1000 hectare area sown* during the reference period.

A8 - Livestock Units Per Lakh Rural Population					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Mangalore	19273.59	26615.73	0.40	0.62	54.02
Belthangadi	43059.12	40265.65	0.89	0.93	4.30
Puttur	46209.01	37645.98	0.96	0.87	-9.14
Sullya	54603.25	40937.54	1.13	0.95	-16.38
Bantval	33971.36	24174.37	0.70	0.56	-20.63
District	36737.79	32331.39	0.76	0.75	-1.85

#### A8: Livestock units per lakh rural population

- As per Dr. D. M. Nanjundappa Committee Report, only one taluk was in developed category.
- As per 2009-10 Index, no taluk were in developed category.
- Except Mangalore and Belthangadi, other three taluks have shown negative change in the value of index over a period of time.
- Mangalore taluk has experienced maximum increase (54.02 per cent) and Bantval taluk has experienced maximum decline (-20.63 per cent).
- The overall district has witnessed a little negative growth in *livestock units per lakh rural population* over a period of one decade.

<b>A9 - Per Capita Bank Credit (Commercial And Regional Rural Banks) To Agriculture (In Rs)</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Mangalore	17.93	12832.23	0.04	5.80	15645.64
Belthangadi	12.31	4261.34	0.03	1.93	7517.17
Sullya	21.33	6734.09	0.04	3.05	6844.38
Puttur	21.85	6592.02	0.04	2.98	6535.48
Bantval	22.57	2780.61	0.05	1.26	2610.43
District	18.89	8476.73	0.04	3.83	9774.27

**A9: Per capita bank credit (commercial and regional rural banks) to agriculture (in rupees)**

- As per Dr. D. M. Nanjundappa Committee Report, no taluk were in developed category.
- As per 2009-10 Index, all five taluks were in developed category.
- All taluks have shown enormous positive growth in the index value over a period of time.
- Mangalore has reported maximum increase in the value of index, followed by Belthangadi and Sullya.
- The district has shown enormous increase in *per capita bank credit to agriculture* over a decade.

<b>I1 - Number Of Industrial Units Per Lakh Population</b>					
Taluk	Actual Data		Normalized Indicator		% Change
	1999-00	2009-10	1999-00	2009-10	
Bantval	202.65	764.75	0.42	2.03	382.90

Puttur	11.79	1.91	2.45	18.55	656.86
Belthangadi	23.97	10.86	1.21	3.26	170.21
Bantval	14.09	6.54	2.05	5.41	163.83
Mangalore	8.76	4.35	3.30	8.13	146.39
District	21.37	5.06	1.35	7.00	417.48

### P5: Percentage of agricultural labourers to total workers

- All taluks of Dakshina Kannada district were in developed category in both the indices.
- All five taluks of Dakshina Kannada have shown positive growth in the index value over a period of time.
- Sullya has reported maximum increase (1596 per cent) in the value of index, followed by Puttur and Belthangadi.
- The district has reported an increase in *percentage of agricultural labourers to total workers*.

## About CMDR

The Centre for Multi-disciplinary Development Research (CMDR) is an autonomous non-profit research organisation located at Dharwad. It was registered in 1980 under the Society's Registration Act. The Indian Council of Social Science Research (ICSSR), New Delhi, an all India apex body of Central Government to promote social science research in the country, recognized CMDR in 1990 as a national level research institute for social science research with regular funding. The Government of Karnataka has also been providing regular maintenance grant to CMDR.

The main objective of the Centre is to undertake research with multi-disciplinary perspective on a variety of socio-economic problems of Karnataka in particular and Indian economy in general and facilitate policy decisions and capacity enhancement on the basis of research studies for the benefit of the society, region and economy through investigation, dissemination, intervention and application. CMDR has also been organising capacity building programmes, research methodology workshops and, Ph.D. programmes in Social Sciences.

After over 30 years of continual action research, CMDR has now emerged as a major think tank in north Karnataka. Two important Research Chairs have been created at CMDR by the Karnataka Government, one in memory of Dr. D. M. Nanjudappa and the other in the name of Shri. Abdul Nazir Sab.
