A Forum for Connected Research & Academic Activities

Highlights

Prof P.R. Panchamukhi, Professor Emeritus Former Chairman & Founder Member of CMDR donated his entire collection of more than 2000 rare books and reports to CMDR's Library.

CMDR entered in to an MOU with Chamaraj Nagar University on 18-12-2023 for carrying out collaborative research and academic activities.

From the Director's Desk.....

The events of CMDR are reaching the masses and receiving suggestions and comments from the readers. Continuous interaction is a healthy indicator for a research institution. Professionals associated with CMDR are enriching the institution by donating books, which are the key inputs for the research. CMDR welcomes the contribution of books and acknowledges the kind gesture of donors. During this period we entered into an MOU with Chamaraj Nagar University, Chamaraj Nagar which is another significant development for the institution. Similar efforts will be continued in the days to come.

I am happy to share the research contributions of faculty members in the form of publications, participation in seminars/workshops/conferences, and training. The faculty of CMDR are acting as resource persons in various such programmes. The process helps in the exchange of information, sharing knowledge, and developing insights for the faculty members.

The meeting of the Governing Council, CMDR helped in taking many policy decisions. Preparation of Project guidelines, accepting Annual Performance Appraisal Report (APAR), revision of DA, C and R for CMDR, etc. The learned GC gave many inputs for faculty members to improve upon the research and development activities.

Organization of a Two-week certificate course on the "Use of modern tools in social science research" observed a huge response from participants. With limitations of time and finance, we could accommodate only 35 participants out of 95 applicants. With this motivation, CMDR shall plan and execute many such events in the future. Similarly, for the benefit of research scholars and faculty, the Library Unit organized a refresher session by EBSCO host passport, which is a user-friendly mobile application.

It is very interesting and motivating for the institution to host an internship programme for social science students from various Universities. A meeting with both Chair Professors was a fruitful exercise in shaping the activities. I am happy to put on record that three scholars of CMDR were awarded a doctorate by their parent university and many are in the pipeline.

Celebration of national, state, and regional festivals is the tradition of CMDR. These celebrations bring the entire institution on a common platform and help in developing bonding among each other. With these many events in a short period let's hope for a great new year ahead. Wishing you all a happy and prosperous new year 2024.

About the book

“Shri. Gangadharrao Balakrishna Deshpande”

India achieved independence on August 15, 1947, following a two-century-long freedom struggle against foreign rulers. The sacrifices of countless freedom fighters have led us to commemorate 75 years of independence. It is crucial to remember and honor their contributions. One such prominent figure was Shri Gangadharrao Balakrishna Deshpande, a leading freedom fighter in Karnataka and Maharashtra. Known as the "Lion of Karnataka" and "Khadi Bhagiratha," he played a pivotal role in the fight for freedom. Coincidentally, we are also celebrating his 150th birth anniversary. Reflecting on Deshpande's life and achievements can serve as an inspiration for the youth, motivating them to engage in national service and work towards the welfare of all, including marginalized sections and women. This book aims to capture his life history and his significant role in the freedom struggle, fostering a sense of patriotism and dedication to societal well-being.

Title of the study “Crop Insurance in India: A Study of Selected Districts in North Karnataka”

- ❖ PMFBY has aroused interest and increased awareness in crop insurance across the country.
- ❖ Delay in receiving the claims and non-receipt of claims despite the crop loss were the two main issues raised with regard to PMFBY in the study region of Vijayapura and Dharwad district. In the year 2020, claim settlement was only 30.58% in the state.
- ❖ Quicker claim settlement, services at their doorstep, initiatives to enhance the awareness level of farmers and publicity of the schemes are suggested for the wider coverage of PMFBY.

Title of the study “Fiscal Management by Indian State Governments”

A notable regional disparities are found between states in fiscal management. Karnataka and Maharashtra exhibit superior fiscal performance, while West Bengal, Punjab and Kerala lag behind. Over three decades (1990-91 to 2019-20) of the period examined under the study, Indian states have exhibited fiscal discipline maintaining a balanced approach in revenue generation and expenditure. The reduction in fiscal deficits across the states signifies commitment to sustainable development.
